STATISTICAL VIEW

OF

THE PROGRESS OF CEYLON,

1823-1901.

NOTES.

The figures under the heads Population (exclusive of those for 1871, 1881, 1891, and 1901, when a Census was taken), Births, Marriages, Deaths, Schools, and Cultivation, are only approximative. The registration of Deaths is compulsory; registration of Births is optional. The figures under the head Schools and Scholars for 1882 do not include Private Schools unaided by Government.

The great difference in value of Exports for 1873, as compared with 1871 and 1872, arises from the average value of Coffee during 1873 in the local market previous to shipment being taken at £4. 10*s.* per cwt. for plantation and £4 per cwt. for native, instead of £2. 14*s.* and £2 as previously.

The money figures from 1874 to 1885 have been converted from rupees to pounds sterling at 1*s.* 10½*d.* to the rupee; for 1886 and 1887 at 1*s.* 7*d.* to the rupee; for 1888 at 1*s.* 4½*d.* to the rupee; prior to 1874 at 2*s.* to the rupee. From 1889 it is shown in rupees.

Permits to cut ebony in Crown forest will be issued only under special circumstances on payment of royalty at the rate of Rs. 100 per ton on logs weighing over 15 cwt., Rs. 75 per ton on logs weighing from 10 to 15 cwt., Rs. 50 per ton on logs weighing from 5 to 10 cwt., and Rs. 25 per ton on logs weighing under 5 cwt.

The full royalty due or, if it cannot be accurately calculated, the estimated amount must be paid before any permit to fell timber is issued.

Royalty must be paid on the whole of the bole of any tree felled on permit, and not only on the log that the license-holder may remove.

In measuring logs for payment of royalty no allowance will be made for sapwood, buttresses, bark, &c. Permit-holders may, however, square logs (provided there is no unnecessary waste of timber), remove the bark, &c., before measurement.

Logs felled by permit-holders and found rotten or hollow must be taken over and paid for at such reduced rates of royalty as may be fixed by the Assistant Conservator of Forests.

A tree will not be considered "dead" unless every part of it is dead and dry.

No log will be considered a "kottu" (well pipe) unless the hollow extends the whole length of the log, and is nowhere less than nine inches in diameter.

Permits to fell in Crown forest trees to be made into dug-out canoes at reduced rates of royalty will be issued only to villagers requiring canoes for local and personal use, and not for sale.

Should any person obtain, at the reduced rate of royalty, a permit to fell in Crown forest any tree for the declared purpose of being made into a dug-out canoe and use the log for any other purpose, it will be liable to seizure and confiscation.

If trees of valuable kinds other than marutu are required for making dug-out canoes, full royalty must be paid.

Special rates will be charged for (*a*) flowered satinwood, (*b*) sawn balks of timber, (*c*) timber in the log exceeding 20 ft. in length, and (*d*) all sawn timber, any side of which exceeds 12 in., supplied on indent or issued from any depôt.

Rejected, waste, or surplus sawn timber lying in any depôt will be issued to applicants at rates 25 per cent. less than those fixed for timber sawn on indent.

* Cancelled by Minute of October 20, 1888.

His Excellency is also pleased, on the recommendation of the Superintendent of Wrecks, to approve of the following Regulations for the guidance of Receivers :—

1.—*Receivers will bear in mind that the principal object of the Ordinance 5 of* 1861, *and of their appointment thereunder, is*—

1st—The rendering of assistance.

2nd—The protection and preservation of wrecked property and the restoration thereof to the owners.

3rd—The protection of the Customs revenue.

4th—The settlement of salvage claims.

The provisions of clauses 3, 7, 8, 14, 16, 17, 21 to 27, and 31 to 32 give them full powers to carry out these objects.

2.—*Inquiries into Wrecks and Casualties at Sea, clause* 3 ; *Ships in distress, clause* 14.

In making these inquiries the officer will remember that he is exercising a highly important function, and that his report may be the foundation of proceedings deeply affecting the interests of individuals. He must therefore most carefully endeavour to arrive at the truth, and should especially direct his attention whether the casualty happened from avoidable or unavoidable causes,—particularly as to the (*a*) unseaworthiness or insufficient equipment of the ship ; (*b*) insufficient or improper manning ; (*c*) improper loading, overloading, bad stowage ; (*d*) misconduct, incompetency, or neglect of master, officers, or crew ; (*e*) ignorance of lights, or navigation of the coast ; (*f*) neglect of heaving the lead.

3.—*Custody of wrecked property, clauses* 9, 16, 17, *and* 18.

Clause 9.—This clause refers to property recovered from a ship wrecked or in distress at the time of wreck or casualty, and the object of its provision is to secure the property in the confusion which attends a shipwreck ; to protect the Customs' revenue ; to provide for payment of fees, expenses, and salvage claims. But if the master, or if the owner, or any duly appointed agent of owner or master is in possession, and is able to take and keep custody of the property, and if all claims are paid or provided for by proper security, the Receiver need not take possession or detain the property, but he will offer his services and render such assistance as may be required.

Clauses 16 and 17 refer to wreck saved or taken possession of at any other time.

Clause 18.—This notice should be given when the wreck in custody exceeds the value of Rs. 50, and the particulars of all articles taken possession of by the Receiver will be entered in the Report Book No. 1, per form annexed.

4.—*Wreck arrested by order of Court of Law.*

When a derelict ship in the custody of a Receiver, or other wrecked property detained by the Receiver for the payment of salvage, is arrested by virtue of a warrant or other instrument of Court, the Receiver should not give up the claims to fees and to any expenses he may have incurred, but should send a copy of his account to the person taking such charge, giving notice of his lien, and that the property must not be restored until the amount of his claims be paid. A copy of the account and notice should also be forwarded to the Registrar or Secretary of the Court issuing the warrant ; and in the event of property being restored without payment of Receiver's claims, he should report the circumstances to the Superintendent of Wrecks, and should resume possession of the property until his claims are satisfied.

5.—*Sale of Wreck Property, clauses* 19, 27, *and* 28.

Clause 19 provides for the disposal of wreck of small value, derelict, flotsam or jetsam, so constantly found on the coasts of this Island ; and should the Receiver find it necessary to sell property under the provisions of clause 27, he will, if the property be claimed, endeavour in doing so, if possible, to act in concert with the owners and insurers.

All sales of importance and value should be advertised in the *Gazette* and local papers ; and notice of intended sale affixed at the Custom House of the Port. The account of wreck sold is to be made in form No. 3 (annexed).

6.—*Salvage, clauses* 21 to 26.

The decisions of questions as to salvage, if the parties cannot agree, must be determined by the Court having jurisdiction in that behalf ; but the Receiver has important duties in endeavouring to settle salvage claims amicably, in providing for what may be due by detaining the property saved ; in releasing the property on proper security being given ; in selling the property, when necessary, to satisfy the claim of salvors ; and in apportioning money paid in satisfaction of such claims ; and the Receiver will recollect that, whilst providing for the claims of *bonâ fide* salvors, he must, as far as he can, protect property against vexatious and improper claims.

The essentials of salvage service are—(*a*) the degree of danger from which the lives or property are rescued ; (*b*) the value of the property saved ; (*c*) the risk incurred by the salvors ; (*d*) the value of any property by the use of which the services are rendered, and the danger it was exposed to ; (*e*) the skill shown in rendering the service ; (*f*) the time and labour occupied.

The salvage should be in proportion to the use of these essentials ; but where scarcely any, or only the last exist, and the same is little more than mere work or labour, it should be rewarded accordingly.

The amount of reward should not however increase in direct proportion to the value of the property ; and as a general rule it may be borne in mind that the Courts of Admiralty very seldom, if ever, give more than one-half the value of the property saved.

7.—*With a view to encourage salvors and finders of unclaimed wreck and drift goods sold and taken charge of by Receivers under provisions of clauses* 19 *and* 28, *the following rewards may be given, viz. :—*

Upon the net value of property of Rs. 25 or under (two-thirds)	$\frac{2}{3}$
When it exceeds Rs. 25 and under Rs. 50 (one-half)	$\frac{1}{2}$
When of Rs. 50 and above (one-third)	$\frac{1}{3}$

8.—*Delivery of Property to Owners.*

On payment of all sums due for salvage, duties, fees, and expenses, the Receiver will deliver up all property which comes into his possession or custody, and the proceeds of such parts of it as may have been sold, to any person who proves himself to the satisfaction of the Receiver to be the owner of such property, or agent duly appointed by him, taking receipts for the same. The owner of the ship being responsible for the cargo, and the master of the ship having, as the servant of the owner, the legal custody thereof, the Receiver will treat the master, when present, as the agent of the owner—not only of the ship, but also of the cargo ; unless and until it is clearly proved that the owners of either have put an end to such agency.

9.—*Accounts and Returns.*

The Receiver will keep a Report Book according to form No. 1, in which he will enter the particulars of every description of article taken into his custody. The reference numbers are to commence with No. 1 on January 1 of each year.

The reporting of goods taken possession of for the Receiver should be made according to form No. 2, and the sale account per form No. 3.

The Quarterly Returns, as per form No. 4, are to be forwarded through the Superintendent of Wrecks ; and the net proceeds of all wreck, the property of Government as unclaimed, is to be paid into the General Treasury quarterly, the Treasurer being required to receive such moneys on account of wrecks.

By His Excellency's command,

Colonial Secretary's Office,
Colombo, February 6, 1862.

W. C. Gibson,
Colonial Secretary.

[1] The duties of the Attorney-General are not clearly defined, but are in many respects analogous to those of the Attorney-General in England; though in some respects they resemble those of the Lord Advocate in Scotland. He acts as Legal Adviser to the Executive and every Department of Government. All Contracts and Deeds affecting the Government are prepared or settled by him; and he prepares all the Legislative Enactments of Government. He acts as Public Prosecutor, and instructs Magistrates in criminal proceedings. All informations in the Supreme or District Courts run in his name, and he, or some one deputed by him, appears for the Crown in most civil cases.

* By "penal imprisonment" is meant imprisonment inflicted as a substantive punishment in pursuance of a sentence of a Court of Justice as distinguished from imprisonment for safe custody, &c.

† Exclusive of Road Ordinance Defaulters.

‡ Includes prisoners sentenced to death.

RETURN OF PRISONS AND PRISONERS.

Replies to the Questions, compiled from the Returns of the respective Superintendents.

QUESTION I.

If the prison is on the separate system, is the separation complete? And if not, what is the separation enforced by day and night, respectively?

All the penal stage prisoners of the Island if sentenced to over a month are passed through one of the following jails:—Welikada, Kandy, Jaffna, Ratnapura.

In these jails the penal stage prisoners are worked on the separate system. They are confined in separate cells, and are worked in stalls. They are marched from their cells to the stalls in single file three paces apart, and are not allowed to speak or communicate with each other at all. Prisoners not in penal stage are not worked on the separate system.

QUESTION II.

If not on the separate system, what provision is there for the supervision of the prisoners while in association?

The males are supervised by male officers of various grades, and the females by matrons, in all jails.

QUESTIONS III. AND IV.

How many cells are there; and how many associated wards? Taking the *average* number of prisoners in jail, how many cubic feet of space are there for each prisoner during the hours of sleep?

QUESTION V.

How are the prisoners classified?

The classification in the Ceylon Prisons is as follows:—

(1) Males, convicted, who are subdivided as follows:—
- *a* Penal stage, lasting for 3 months.
- *b* Class IV. „ 9 „
- *c* Class III. „ 12 „
- *d* Class II. „ 12 „
- *e* Class I. rest of sentence.
- *f* Road Ordinance defaulters.
- *g* Simple imprisonment.

(2) Females, convicted, in same class as males.

(3) Males, unconvicted, who are subdivided as follows:—
- *a* Debtors, Crown.
- *b* Debtors, private.
- *c* Persons committed in default of bail, witnesses, &c.
- *d* Persons committed for further examination.
- *e* Persons committed for trial by Superior Courts.
- *f* Persons committed to await sentence and pending appeal.
- *g* Accused persons arrested on warrants in transit to other stations.
- *h* Suspected lunatics committed for medical observation.

[At Colombo, Kandy, Galle, Jaffna, and Batticaloa no lunatics are now committed to prison, proper and separate Houses of Observation having been provided, which are placed under the control of the Medical Department, except when such Houses of Observation are fully tenanted.]

(4) Females, unconvicted.

(5) In Welikada some prisoners of war, whose conduct has been bad in the camps, are also confined.

QUESTION VI.

Is penal labour—that is, labour by treadmill, crank, or shot-drill—in force?

The penal labour consists of beating coir husk, metal-breaking, and pingo-carrying. Treadmill work is carried on in Welikada.

QUESTION VII.

If so, during what periods of imprisonment, in respect of what classes of prisoners, and during how many hours, is such penal labour enforced? In stating hours of treadwheel labour, give, first, the total time on and off at the wheel, &c.; secondly, the length of spells and intervals of rest.

This penal labour is enforced during the penal stage, and also in the cases of prisoners reduced to the penal stage as a punishment. Total time on and off at the wheel are 5 hours 36 minutes and 1 hour 39 minutes respectively. Length of spells 15 minutes and interval of rest 5 minutes.

QUESTION VIII.

What kind of labour, other than penal labour, is in use?

With the exception of a small number reserved for jail service, the prisoners were employed in the Harbour Works, and as carpenters, sawyers, blacksmiths, tinkers, masons, sweepers, tailors, fencing and weeding, hospital attendants, cabook-cutting, making brooms, building quarters for jail officers and making additions to jails, repairing jail officers' quarters, and twisting rope.

QUESTION IX.

If the prisoners are employed beyond the walls of the jail, state—

(1) On what kind of work they are so employed?

At *Welikada*, the convicts were employed in conveying night soil, cabook-cutting, fencing and weeding, carting cabook, building, repairing, whitewashing, and thatching officers' quarters, &c.

At *Mahara*, in mining, sledging, stone-cutting, and loading wagons with rubble and metal.

At *Mutwal*, harbour extension works.

At *Nuwara Eliya*, in excavating ponds, levelling, weeding, &c., for the improvement of the grounds at the Queen's Cottage and Nuwara Eliya Plain.

---

(2) How are they supervised?

By Superintendent, Assistant Superintendents, Jailers, Deputy Jailers, Overseers, Sub-Overseers, and Guards.

---

(3) How many escapes of prisoners, while being employed beyond the jail, have taken place during each of the last three years?

Total escapes are as follows:— None.

(4) How are the profits of their labour accounted for?

An account of the labour contributed to each work is kept, from which the reply to Query XI. is compiled, but no money passes, nor is the labour paid for, except where articles manufactured in prisons are sold, when the actual cash realized is paid into the nearest Kachcheri and brought to account as revenue. The amount recovered on account of metal is also credited to Government.

QUESTION XIV.

Is there, or are there, any chaplain or chaplains of any, and what, religious persuasions?

There are no Prison Chaplains, but accredited ministers of all pursuasions are admitted on application.

QUESTION XV.

Are religious services regularly, or otherwise, performed for the benefit of the prisoners of any, and if any, what religious persuasion?

At Welikada, Borella Hospital, Mutwal, Bogambra, and other principal jails frequent services are held both by Protestant and Roman Catholic ministers on Sundays; and religious instruction is also given by catechists of various denominations regularly. At other prisons such services are held whenever any minister expresses a wish to do so. Religious services are also held by Buddhist priests in some of the jails.

QUESTION XVI.

They are allowed free access, but are not informed when any such prisoners enter the prison, unless at the express wish of a prisoner.

QUESTION XVII.

What provision is made for the education of prisoners?

At Welikada education is confined to the juveniles by paid teachers for three hours a day on week days.
At Mahara two teachers (one Sinhalese and one Tamil) on Sundays devote two hours giving education.
At Mutwal teachers appointed by Government devote two hours in teaching every Sunday.

QUESTION XVIII.

On what conditions are remissions of imprisonment granted?

According to regulations for marks and remissions in the General Rules made on July 15, 1891, and revised on April 18, 1894.

QUESTION XIX.

Have Coroners' inquests been held on every occasion of a death in prison during the past year? And what were the verdicts?

Every death is reported to the Police Magistrate or Deputy Coroner, and inquiries under chapter XVII. of the Criminal Procedure Code are held on every occasion. The number of deaths and inquests held have been as follows:—

Jails.	No. of Deaths*	Jails.	No. of Deaths*	Jails.	No. of Deaths*	Jails.	No. of Deaths*

I.—What quantity of Water is available for each patient every day?
What is the source of the Water Supply?
What is the quality of the Water?
II.—Detail the arrangements as to Baths and Lavatories.
III.—What is the system of Sewerage; and what the condition of the Privies?

ANSWERS.

Western Province.

Leper Asylum, Hendala.—An ample supply. Town supply from Labugama; the Kelani river in the vicinity of the Asylum. The quality of the water from the town supply is pure and good; the river water serves the purpose of ablution, &c. There are twelve bathrooms in connection with the Asylum supplied with hot and cold water, according to the requirements of the patients. The dry-earth system is in use in well-constructed latrines, in which metal pails are placed as receptacles for the excreta, and a quantity of coir-fibre dust reserved for the purpose of deodorization. The latrines admit of the utmost cleanliness and free ventilation, and are constantly whitewashed and disinfected. The sewage is removed twice a day and incinerated in the "Silchar cinerator" at a distance from the wards.

General Hospital, Colombo.—Ad libitum. The Labugama reservoir; the water is filtered for drinking purposes through Pasteur's filters. Excellent. There are bathrooms in connection with each set of wards; some of these bathrooms are old, and should be re-built on more modern lines. The dry-earth system is in operation. Dry coir dust is used to absorb and deodorize the excreta to some extent. A free use of coir dust will necessarily increase the bulk to be carted away with a corresponding increase in the cost of removal.

Lady Havelock Hospital, Borella.—The quantity of water available is unlimited. The reservoir at Labugama. Good. There are six bathrooms, and to each bathroom there is a three-quarter inch tap, and in some one inch wide, which conveys the water from the pipes. The dry-earth system is in use, and is carefully carried out. The night soil is removed daily and buried in the jungle about two miles from town.

De Soysa Lying-in Hospital, Maradana.—Unlimited supply. Labugama water supply. Good water for drinking purposes. There are two outhouses, one on each side, connected with the main building corridors and verandah in each range. There are dry-earth latrines and bathrooms, the latter being used as lavatories. No sewers. Open cemented drains for surface water only. Dry-earth latrines emptied twice a day.

Panadure.—Unlimited. From a well in the garden. Colourless, clear, and apparently pure. There are two latrines, one for females and one for males. Each has two cemented baths. The dry-earth system is in use. The buckets are removed twice a day, and the contents buried far away from the hospital; each privy contains three zinc buckets.

Kalutara.—Ad libitum. Well in the premises. Good. There are two baths attached to the latrines, one for males and the other for females. The water to the baths is conveyed by pipes.
